

What are churches good for?

People have lots of expectations of what a church should do or be. Our simple purpose is **discipleship**. We want to help you follow the Lord Jesus Christ through teaching the Gospel, practicing the spiritual disciplines, and serving one another— all for the glory of God:

We have good news. The Gospel of Jesus Christ is the amazing good news that God loves us and is saving us from our sins.

We seek unity. The Church of Jesus Christ consists of believers from around the world. Our South Philly neighborhood is ethnically diverse. SACC reflects that diversity across its six congregations.

We put others first as we seek to follow Jesus' example. The Lord Jesus Christ shows us the joy that comes when we put others first. We seek to serve and love one another and our neighbors.

Come join SACC as we grow in the grace & knowledge of Jesus Christ.

SACCP Philly - Snyder Avenue Congregational Church

A different kind of church
